b  
**UNIVERSITÄT  
BERN**

**Laboratory Technician**  
**80-100%**

Al Nabhani's Lab is seeking a highly motivated Laboratory Technician (100%) to join our team at the Department of BioMedical Research - University of Bern, Switzerland.

**Tasks**

- Animal experimentation and optimize research experiments in molecular biology
- Support of doctoral and master students in their research activities
- General support functions and maintenance of the lab

**Requirements**

- Degree as "Laborant/in, Master" or equivalent education
- Processing and optimizing experiments (PCR, primer design, flow cytometry, recombinant DNA technology, CRISPR-Cas)
- Organized and detail-oriented, able to maintain accurate documentation of experiments
- Collaborative, able to work effectively in a team
- Fluent in English and knowledge of German or French is desirable

We offer an interesting position in the field of mucosal research in academia, and the opportunity to expand your portfolio with skills in immunology study.

**Starting date**

January 1<sup>st</sup>, 2022 or by arrangement.
